Rainbow Lollipop

On Sunday at Seaford beach, Felix was playing in the water with his twin brother, Oscar. They were playing with their caramel Kelpie, Ginny. Their playtime soon turned bad when their Mummy wasn't watching.

The first bad thing was that Oscar on purpose stepped on his brother's sandcastles. The second bad thing was that Oscar put a crab down Felix's swimming shorts, which made Felix angry with his brother. And the third bad thing at Seaford beach was that Oscar pushed his brother into the water.

Felix was so cross that he walked away towards the lollipop shop. He chose a rainbow lollipop that had all the flavours inside and was so yummy, like bubblegum, strawberry, caramel, orange, lemon and apple. And then he licked the lollipop and a genie came out and said I will grant you three wishes.

So, his first wish was that his brother would fall in a sand hole. Felix had been angry with Oscar for being mean to him. He used the genie to wish for his brother to fall down a hole and the ground shook and suddenly he was in a hole two meters deep down.

When Felix saw his brother crying in the hole, he felt sorry for him. He remembered how being a twin is special. He wished for a paramedic kit to rescue his brother. He got the rope and managed to save him.

He used his last wish to take them both to the golf course because they like playing golf together. Felix decided to say sorry to his twin because he felt bad for making him fall down a hole and he wanted to be kind.
